Summary

Detail-oriented Full Stack / Frontend Developer with expertise in React.js, Node.js, Express.js, SQL, and MongoDB. Experienced in REST API development, responsive UI design, and building maintainable code. Seeking an entry-level developer role to contribute to real projects, optimize user experience, and grow professionally.

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, React Hooks

Backend: Node.js, Express.js, Core Java, REST APIs

Databases: MySQL, SQL Server, MongoDB

Tools: Git, GitHub, Postman, VS Code, Axios

Concepts: OOP, MVC, SDLC, Agile, JWT, JSON

Experience

Full Stack Developer — FoodExpress (Academic Project)

01/2023 – 12/2023

- Developed authentication, restaurant menu, cart, and order management modules for 100+ simulated users.
- Optimized 15+ REST API endpoints and database queries, improving backend response time by 25%.
- Built responsive UI using reusable React components and Axios, increasing user satisfaction by 20%.
- Implemented secure routing and session handling with JWT authentication.

MERN Developer — Hospital Management System (Academic Project)

06/2025 – 09/2025

- Created modules for doctors, patients, appointments, and admin dashboards for 50+ simulated users.
- Integrated JWT-based role access control, enhancing security and compliance.
- Built dynamic, responsive UI using React Hooks and Context API, reducing page load time by 15%.

Frontend Developer — Weather Forecast App (Academic Project)

01/2025 – 03/2025

- Integrated live weather API to display real-time data for multiple cities with 99% uptime.
- Added auto-location detection, search functionality, and dynamic weather icons to improve UX.
- Designed mobile-responsive UI using React Hooks for consistent cross-device performance.

Education

MCA – Visvesvaraya Technological University (VTU), Kalburgi

02/2022 – 11/2024
